

# **EXHIBIT CT**

 We are experiencing longer than normal wait times for support. We appreciate your patience and understanding during this time.

# Meet the Google Home app

The Google Home app helps you set up and control Google Nest, Google Home, and Chromecast devices. You can control thousands of compatible lights, cameras, speakers and more, all from a single app, as well as see your reminders and recent notifications.

Android

iPhone & iPad

## Get the latest version of the Google Home app

Download or update the [Google Home app](#) from the Google Play Store.

## Ways to use the Google Home app

You can use the Google Home app to:

- Set up Google Nest and Home devices (Google Home, Google Nest Mini (2nd gen), Google Home Mini (1st gen), Google Home Max, Google Nest Audio, Google Nest Hub, Google Nest Hub Max), Wifi devices (Google Nest Wifi, Google Wifi, OnHub), and Chromecast devices (Chromecast with Google TV, Chromecast, Chromecast Ultra, Chromecast Audio, and TVs and speakers with Chromecast built-in).
- Control, organize and manage compatible lights, cameras, TVs and more, all from just one place. The Google Home app works like a remote with thousands of smart home devices from most popular brands.
- Manage your Google Assistant settings and preferences.
- Manage device settings.

## Home

From **Home**  you can control your Google Nest, Google Home, Chromecast, and other smart devices. This is also where you can set up new devices, and see all of your devices organized by rooms in your home.

## Home

You'll find the name of your home at the top of the screen. If you have multiple homes set up, you can tap your home name to switch between homes.

## Quick Actions

Here you have general controls over your whole home. Each button acts as a control for a device, service or group of devices and services. Each has a different function depending on which device it represents and the state that device is in.

-  **Lights off:** Turn off your smart lights by room, or turn off all smart lights in the home.
-  **Lights on:** Turn on your smart lights by room, or turn on all smart lights in the home.
-  **Media:** Shows media you currently have playing and which device it's playing on. If you have more than one device, you can choose to [stream from one device to another](#).
-  **Call Home:** Call your Home to ring all your devices linked to Duo.
-  **Broadcast:** Broadcast a message to your Google Assistant speakers and Smart Displays from the Google Home app.
-  **Thermostat:** Opens the controls for your thermostat. If you have more than one smart thermostat, you can choose which one to control.
-  **Cameras:** Shows the video feed from your camera. If you have more than one camera, you can choose which one to view.
-  **Wifi:** Run speed tests and manage your Nest Wifi, Google Wifi, or OnHub network and settings.
-  **Routines:** Create and manage routines for your device.
-  **Settings:** Opens your [home settings](#).
-  **Action chips:** Quickly connect smart home devices, link media services, and take other recommended actions.

## Devices in your home

### Rooms

Your Google Nest, Google Home, Chromecast, and other smart home devices are listed by room. Tap on a device to open the controls for that device.

## Explore what you can do with Google Nest devices

-  Introducing home view on your Google Nest display
-  Have a conversation with your speaker or display
-  Explore what you can do with Google Nest devices
-  Meet the Google Home app
-  Preview Program overview
-  What you can ask the Google Assistant
-  Learn about the Feed in the Home app

### Have a question?

Get an answer from an expert on the [Google Home Help Forum](#).

## In your home

Devices that are part of your home, but are not currently assigned to any room will be listed here. Tap on a device to open the controls for that device. You will also be able to assign them to a room.

## Groups

Speaker groups on your local Wi-Fi network will appear here. Tap on a group to open the controls for the speaker group.

## Other cast devices

Devices that are connected to your local Wi-Fi network, but aren't added to your home can be found here.

## Device controls

From **Home** , tap on a device to control your device or access its settings. Different types of devices will have different controls.

- **Google Nest and Home speakers and displays** - Control the speaker's volume and EQ, or access settings. You can also play, pause, skip forward or backward in a song, podcast or audiobook, or stop casting.
- **Chromecast devices** - Control the display's volume, or access settings. You can also play, pause, skip forward or backward in a video, movie or TV show or stop casting.
- **Lights** - Turn your smart lights on and off and adjust their brightness (if supported).
- **Thermostat** - Adjust your thermostat's set point, change modes, and see the ambient temperature.
- **Smart Plugs** - Turn your smart plug on and off.
- **Cameras** - View the stream from cameras.
- **Speaker Groups** - Control the volume and EQ of all devices in the speaker group, or access the group's settings. You can also play, pause, skip forward or backward in a song, podcast or audiobook, or stop casting.

## Feed

The **Feed**  tab is where you can get alerts about important device activities and reminders.

- **Priority events** – See highlights from the last 30 days.
- **48-hour recap** – Get an overview of your device events for the past 48 hours.
- **Discover** – Learn about new features, supported queries, Chromecast-enabled apps, and offers available for your devices.

## Account menu

Select your photo on the upper right corner of your Google Home app to access the following settings:

 **Add another account** - Set up devices and services, add household members, and create speaker groups and homes.

 **Manage accounts on this device** - Add or remove accounts.

 **Home app settings** - Manage your General Privacy & Legal, and app settings.

- Email notifications - Manage your email notifications.
- Clear saved Wi-Fi networks - Clear all saved Wi-Fi networks.
- Clear app locations - Remove your saved locations.
- Partner Connections - Choose which data you share with Google Nest partners.
- Search and watch history - Manage your search and watch history.
- Google Nest privacy FAQs - Read privacy FAQs.
- Supplemental Nest Terms of Service.
- Open Source licenses.
- App info - View the app version.
- Google app settings - View your Google app settings.
- Rate the app - Rate the app in the Google Play store.

 **Assistant settings** - Manage your Google Assistant settings, services, and linked devices.

 **My Activity** - See and manage your Google Assistant activity.

 **Help & Feedback** - Access the Chromecast and Google Nest Help Centers. Get answers to questions and find troubleshooting information. Submit a feedback report for your Google Nest, Google Home, Chromecast, and Chromecast Built-In devices.

## Home Settings
